VOL. NO.

BRANDON, MAN., THURSDAY, JULY 28 1892.

FIVE CENTS

OLD HATS GO BEGGING.

And why shouldn't they when for \$1.00 you can buy as natty and stylish and handsome a Derby as ever made an old hat look ridiculous. It is a wise head that is becomingly covered. Let your old hat go begging, the one thing you can't afford to do is to wear it. Stand in front of our mirror for a minute with one of our \$1.00 hats on your head and that'll settle it, the old will be substituted by the new. These hats are worth and are regularly sold everywhere at \$1.50, \$1.75 and \$2.00. It don't look reasonable, or rational, and it does look reckless, but we have nothing else to do with our big stock of hats? Remember also big discounts mean nothing if quality and style are absent. Drop in and examine our values. See our cut prices in Shirts, Summer Underwear, Ties, Sox, Umbrellas, Rubber McIntosh Coats, Men's and Boy's Summer Clothing of all kinds. The prices go down as the mercury goes up. We're after the cash.

ELECTIONS. THE RESULTS.

The battle is over and the victory, such as it is, is with the Government. In a cool moment the situation can be fully considered, and if the circumstances are all taken in, while it is a real victory for the Government, it is not at all one secured with credit, as it is safe to say no opposition in a Canadian contest had so much fraud, trickery and deception to contend against as the Manitoba Opposition. In the first place, in every constituency there was a very imperfect Voters' List to face. There is it is safe to say in every list in the country from 25 to 100 defects, made up of qualified opponents off, and unqualified friends on. Where Opposition candidates are defeated by small majorities as in Rockwood, Cypress, Kildonan, etc., the defects in the lists served the purpose.

Again misrepresentation of the late Government had its effect. It was heralded throughout the length and breadth of the country that the late Government left a deficit of \$315,000, and as no reference was made to the assets against it, the public were led to believe the present Government had to make it up by economy in management. The most, too, was made out of their larger payments to schools and municipalities while the exceptional payments to the people by the Norquay administration were kept out of sight. This, of course, is deception, but it is the chief plank in the Greenway platform. Then again the School question was made to do a service, the public will yet learn to their hearts content was an unqualified fraud. Had the Greenway Government been desirous of getting public opinion on the question, they would have looked for it four years ago; but they did not. They knew that looking for it now is a fraud on the people and ere long the people will learn this for themselves. The agitation served the purpose for the time, however, and now the people will be left to mourn their foolishness at leisure.

The results in the constituencies as we learn them are as below:

DEATH.

The hand of death has been unusually busy in this vicinity the past week.

On Monday after a brief illness Mrs. F. Chesley, of Alexander, a most estimable lady, in the prime of life, breathed her last leaving a sadly afflicted family behind.

On Monday also Mr. John Ranald Davidson, son of Mr. Richard Davidson, who spent some years in the Brandon Post Office and Dominion Lands Office, succumbed to that dreadful disease consumption, aged 27 years, 9 months and 23 days. His death was not unexpected, as he suffered for several years, but it is none the less a serious blow to the afflicted family. The young man was a great favorite in musical circles, being one of the best organists in the city. However, as all drop in turn, there is no relief but submit to the inevitable and retain the names of departed dear ones in respectful memory. The deceased was buried on Wednesday, his remains being followed to their last resting place by a large procession of sorrowing friends and acquaintances.

Mr. and Mrs. Arthur Kelly are other persons compelled to submit to a deep affliction in the loss of their eldest son Freddie, aged 3 years and 11 months. Freddie was a dear child to his parents and a great favorite with acquaintances, but the dearest flower on earth must go at the call of death regardless altogether of the void created in the aching breasts behind.

THE RACES.

The attraction on Thursday at the Fair were the horse races and the attendance was very large. The results were as follows:

Pony race, half-mile heats, two in three—1st, Yeomans (Alexander) Ginger; 2nd, Leoston Smith's (Brandon) Roan; 3rd, Hetherington's (Douglas) Brown.

Farmers' trot, half-mile heats, two in three, owners up and only for horses having helped to put in crop and have never started in a race—1st, A. Nicol's (Alexander) Bay Nellie; 2nd, L. Wells (Brandon) Birdie; 3rd, C. T. Card's (Brandon) Sleepy Bird. Gentlemen's road race, half-mile heats, two in three, owners up and only for horses that have never started in a race—1st, Geo. Munroe (Brandon); 2nd, Frank Morris (Brandon) Tippi.

Named race, mile heats, two in three, owners up—1st, Frank Russell (Brandon) Fan; 2nd, Wm. Wilson (Brandon) Wild Harry.

FOOT-BALL MATCH.

"When Greek meets Greek Then comes the Tug of War."

The final league match of the "Western Manitoba Foot-ball Association" takes place on the 6th St. lacrosse grounds, Brandon, on Saturday July 30th, at 3:30 p.m., between the "Alexanders" and the "Plum Creeks."

As these teams have come out a tie in the league games, it was decided by the association that this last game should be played on neutral ground, and Brandon was chosen. H. L. Adolph is to be referee. This game will decide the championship of the association and the winners will wear the League medals; consequently a closely-contested game is expected on Saturday. It is reported that a Brandon team will try conclusions with the winners at an early date. Do not miss the game on Saturday.

BRANDON'S BUTCHER LIC-ENSE.

The By-law Quashed by Chief Justice Taylor on Monday.

An application was made on behalf of Archibald Park, a butcher of Brandon, to the Chief Justice on Monday to quash a by-law passed by the council of the Wheat City, which fixed the fees for butcher licenses at \$200 per annum. The principal grounds of objection were: that it was a restraint upon trade; that the fee was unreasonably high, and that the by-law was ultra vires of the council, as it provided that in default of fine being levied by distress, imprisonment for two months could be imposed, while the Revised Statutes enact that in such a case it could not be for more than twenty days. On the latter ground his lordship quashed the by-law without considering the objections. Mr. Culver, Q.C., and Mr. Colin H. Campbell appeared for Park; Mr. Cumberland for the Brandon Council.

AN UNTRUTH.

On Rosser avenue on Monday evening, 25th inst., ex-bailiff John Parker said that I, E. H. Manchester, said I never would again be handicapped by the present government, nor again vote for them. I do now say, since I said I was out to support Mr. Smart, I have never regretted what I have done, and I am now glad (although sorry because of Mr. Smart's defeat) I have taken a step which I know will finally redound to the elevation of humanity and equal rights to all. I intend to follow the present government while they continue to do as they have done in the last 4 years, and I do firmly declare the above statement of ex-bailiff John Parker to be an untruth, and he beneath my social recognition.

E. H. MANCHESTER.

A Preacher Gives Gospel Straight From the Shoulder.

1

(Continued from last week.)

Mr. J. E. Aylsworth of Rosser avenue had a good assortment of coal, wood stoves, furnaces etc. He is now for some eastern manufacturers at his second-hand store, near street, may be found a nice assortment of new goods, which he sells at very reasonable prices.

After getting through at the main hall, those interested to the poultry crops; hens and rabbits, ducks, geese quacking rah-rahing, doves cooing, geese hissing, and all sizes and ages crowing and cawing to woe, and a few turkeys trying to crow. We became bewildered and very soon we were away from this noisy medley until we found ourselves near the Implement show.

Mrs. McKennie & Tussell made a large lot of all kinds of vehicles; wagons, carriages etc.

Mrs. Smith & Sherrill exhibited in different classes of machinery the Deering binder and Abell's side-swinging straw-binding engine down to the harrow.

Hannah Green showed the celebrated "Big Engine" and other machines being Foster & Woods and Sylvester Johnson.

Wm. Johnston, H. S. Westbrook and Jessy Harris were largely and well represented.

The exhibition of these farming implements at the fair put not only a credit to themselves, but to our city, for it was shown that we are the distributors of the best of great country.

The stalls were well filled with the best grade and thoroughbred cattle and horses of all kinds except the dogs which were closely housed in the back row of stalls, specially prepared for them.

We would be out of place for us to say what we personally think about the animals, we can only refer our readers to the price list, which we will give here.

On the days were spent pleasantly and profitably, and without a single quarrel; and we can also add that it financially a success.

The pure horse judges were R. R. Allen, Esq., of Essex, England; S. A. Vesp, and as, in our judgment, we were quite capable of hitting their mark, we say nothing but refer you to the list of 1908.

Ed. H. Fleming, of Carrollton, had six horses on the grounds including stallions, roadsters and general purpose. He had one sturdy year old "Comrade" and he also slack turkeys which he brought.

Miss Peas heard of thoroughbred cattle, Mr. Hunt's drivers, were a credit to 1907.

Robert Johnston's "The Pride of Oxford," registered in the Dominion of Horn Herd Book, No. 11714, is of the best animals ever sent to the city by the famous "Thoroughbred Stock Co." John C. Smith, Esq., of Belfast, Minn.

Mr. McKay had a splendid span of three mares) about 16 hands. The youngest is a "Hambletonian boy" well up at all points of a good trotter.

Mr. Hugh Conway, of Minneapolis, had several general purpose colts and a brood mare half bad at foot worthy of notice. His carriage team, got trained on road down so that he could not expect to get any more.

Joseph Moore, of Berresford, had a grand span of "Haddos," and dark chestnuts and were well fitted for the road.

Wm. Cook showed two splendid cows whose udders were large enough to carry and supply 29 quart of milk.

Mr. Jos. B. Chambers, of Wauwanesa, Wis., had imported Clydesdale mares, foal at side, by "Blackburn" which is 14. He would sell colts and dams for \$100.

Ritchie and his conjuditors say that "Shire" horses as a class were far in excess of all others.

From the Kelly House, a black corded 'rom coat lined with farmer's satin. The name of the maker, W. M. Brown, Milton, Ont., was on the collar. A trace of the party who took it in mistake or otherwise is to be found, and the best; though he can do return it to the hotel and no questions will be asked. Failing this, trouble may be looked for.

The Humanological Institute.

Only students of the byways of philanthropy have ever heard of the Humanological Institute. It was founded by a philanthropist, who had become disappointed if he had ever tried to do any good to humanity, humanity had always punished him badly for it; so he tried to benefit inanimate things instead. He set apart one large room in his house for the use of shop-window dummies; he wrote invitations to four dummies of whom he had cognisance, inviting them to use the room as an institute. He was shortly afterwards removed to one of our asylums, before he went, however, I attended the first meeting of the four dummies in question. I was taken there by the Whist-dummy, with whom I had been playing during the evening. He secreted me in a cupboard, lest my presence should offend the others. I went to sleep at once, and when I woke up the business of the meeting had already commenced; I gathered that the four dummies had formed themselves into a society for the study of humanity, to be called "The Humanological Institute." The door of the cupboard was sufficiently open to allow me to see and hear distinctly.

The Curate dummy, from the ecclesiastical out-fitter, had been elected president. He did not seem to be in a good temper. "I suppose I must apologise," he said, "for appearing in a striped, stone, mortar-board, and no face. But that's the way they do things at the establishment where I live. It's not my fault. I call upon 'The New Confure' to read the minutes of the last meeting."

"The New Confure," from the hair-dresser's said that there was no last meeting. She was dressed in velvet and precious gems, and her voice was lady-like. Only the upper half of her was present.

The president remarked that this was not material. The society was founded upon paradox. He himself, although clerical, was a lay-figure. If there had been any minutes, he could not possibly have confirmed them—not being a bishop. He would suggest that they take the minutes as read.

"As Now Worn," from the clothing emporium, desired to second that.

The Whist-dummy pointed out that if there were seconds there must be minutes.

Upon his suppression, the president asked that those who were in favor of his suggestion would signify the same by holding up their hands. The Whist-dummy objected that his own hand was always laid on the table, and was then thrown into the coal-scuttle. The president next proceeded to the discussion of humanity by asking "As Now Worn" to give the minutes of the last meeting.

"As Now Worn," a young man with a smile and two much eyes, produced a card, on which was printed "Exceptional Value," and read some remarks pencilled on the back of it. He apologised for their incoherence, which arose from the fact that his arm was not jointed at the elbow. They were as follows:—
"Man is a deterioration of the dummy. I stand alone in my glorious glass-house hung with bright trousers in the clothing emporium, and I observe man in the street outside. His face is not painted black as mine are. He has not my glorious mobility. He wears boots to hide the deficiency. He chiefly exists to show dummies the truth of the doctrine of evolution, which in a tailor's shop would, of course, result in the survival of the fitter. With regard to she-man, I am more in doubt. A good deal passes."

The Whist-dummy was understood to observe that it was the other kind of deal which generally passed. When some degree of quiet was restored, the president asked "The New Confure" to favor the society with the results of her study of she-men.

"The New Confure" said, with a simper, that it was the he-men she had been principally engaged in observing. She had come to much the same conclusion—
"Then don't go on," cried the Whist-dummy.

Much the same conclusion as the former speaker. She thought that the charge of intelligence which was often brought against the human race was not quite just. There might be cases, but she did not believe that intelligence existed at all general. Where it existed, it could generally be removed by civilization. The work of the Humanological Institute was to study the human race, and to bring it down to a barbarism. He had spent some time in the society of scholars, and this kind of thing hurt him.

The president thought the Whist-dummy's interference needless. What did the present company care for his scholars? He (the president) knew a vicar who took pupils, and his scholars all years buttoned at the back. That, however, was not the point.

The Whist-dummy thought that the point should have been decided before they began.

"The New Confure" protested against the introduction of gambling. She would continue her paper—
"As Now Worn" pointed out that his own paper was not finished yet. There was no reason why they should not both read their papers at the same time.

The Whist-dummy agreed, on condition that they were not read necessary. The president thought that the question should be put to the vote. He would take the sense of the meeting.

It was then discovered that the meeting had no sense, and the proceedings terminated in some confusion.

OUR SCHOOLS ABROAD.

Mr. A. S. Rose, who was in charge of the Manitoba school exhibit at the Dominion Teachers' convention in Montreal, returned yesterday, delighted with the success of the gathering. He states that the convention was very representative in its character, all the provinces sending delegates. The members present, considering the magnitude of the organization, was, however, small, the latter provinces sending the larger number.

The brightest feature of the proceedings was the address by Hon. G. W. Ross. The addresses by Principal Grant, of Quebec, and J. L. Hughes, of Toronto, were also very interesting. Regret was expressed at the small attendance of teachers from the western part of the country, but for a first gathering the convention was a success. The exhibits of school work were visited by hundreds from morning until night. The Toronto exhibit overshadowed the others in bulk, but the greater part of it was from the school of art.

The exhibit from Hamilton was most complete, ranging from the kindergarten to the highest class of the public and the school of art work. But Manitoba's exhibit attracted the greatest interest, and the universal opinion of all visitors was that in so far as it extended it was the best. One particularly commented on by the most numerous art critics was the map drawn of which was highly recommended as being superior to any in the building.

The strange point of the exhibit also called forth commendation. "Manitoba's Exhibit" in large letters, adorned the front, quite a magnificent coat of arms, and a large map of the province drawn by Winnipeg boy, relieved the background. Visitors evinced the widest interest in Manitoba. Questions would be asked about the schools and the discussion would then drift off into wheat and other topics, so that Mr. Rose at times found himself answering questions in regard to every condition of Manitoba's prospects, present and future. One fact was brought prominently before Manitoba's sole representative, and it is that more attention should be paid to drawing about the schools and a good showing in this, particularly Toronto, but it is to be remembered that Toronto has had an art school longer than Manitoba has been a province.

It was particularly gratifying to the visitors who were not English-speaking to see the excellent exhibit of French and German, which was bound for inspection. Some of the French-speaking people had an idea that their language was entirely prohibited from the public schools of Manitoba.

The officials were very kind and courteous; Rev. Mr. Rexford and Rev. E. M. Taylor, secretary of the executive and all concerned did everything in their power to make the Manitoba exhibit a success. It will be placed on view at the industrial exhibition where Manitobans themselves will have a chance to see the school work which was so much admired by the residents of the east.

It is easy enough to talk of guaranteeing satisfaction, but another thing to give it. We have been in the clothing business for three years, and the steady growth of our "Self Measurement" department proves that our system is correct and as such it is possible to give it.

"You are not satisfied with it?"

Please send samples for the black suit at about \$2 and oblige.

These are the contents of letters received daily, and it means a saving of from \$5 to \$10 in every suit you buy from us in this way. The tailors of Manitoba and the Northwest cannot afford to make you clothes for less than they do, but we can afford to make them at our own regular price which is a saving to you of about 33 per cent. Write for samples and self-measurement slips. All suits sent express prepaid to any station on the C. P. R., east of Regina. Address:

CREDIT DISCONTINUED.

The undersigned begs to tender his thanks to the public in general for the liberal patronage they have given him, and to announce at the same time that the credit system has been discontinued on the cash basis only. He has experienced that credit makes business transactions much more expensive to the customer, and the business man and the mechanic must charge more for their wares and wares, and for the work done, and on bringing accounts that are collectable, and on bringing work down to hard pan prices for cash. He is ever ready to turn out the best work that can be done in the country, by the most skillful workmen that each can engage, and at the lowest prices for the benefit of the spot. This system of business will prove the most satisfactory to all concerned.

the auspices of the Methodist S.S., Bran-
don. Fare \$1.00

Mr. H. J. Vatcher has had a full supply
of pease and potatoes in his garden since
the 15th inst. We have to thank him
for our first feast of new potatoes.

Mr. G. A. Patterson, of the Electric
Light Co., was married on Wednesday
evening, to Miss Maggie Bell, 13th St.,
the Rev. Mr. Daniels officiating. On the
occasion the bride was made the recipi-
ent of many valuable presents, among
them being a beautiful tea set by the
Electric Light Co. As the young couple
are especial favorites it is needless to say
they are receiving many congratulations
from friends and acquaintances.

The Winnipeg Tribune says that Mr.
Smart's constituency was weakened for
Smart since last election by detaching a
considerable Greenway vote that went to
Mr. Graham. This is a straight up and
down falsehood as territorially Brandon city
was untouched by the late redistribution.
In Mr. Cliffe's election four years ago he
found many Conservatives who said,
"We are disposed to give Greenway a
trial." These are satisfied with a four
year trial and voted this time for Mr.
Macdonald. It is to this and this alone
Mr. Smart may credit his defeat.

Mr. J. D. Hunt, of Brandon, formerly
of P. one, Elgin County, arrived on Sat-
urday night and will spend the
summer in Elgin. Mr. Hunt was for
several years inspector of Public Schools,
but is now a student in the office of Clif-
ford Sifton, Attorney General. He is
also a member of the Advisory Board of
the Department of Education for the
province. Mr. Hunt speaks in the most
flattering terms of the prospects of the
Prairie Province. Referring to the ap-
proaching elections and to the policy of
Government, he says that the all absorb-
ing question just now is the result of the
general elections, which takes place next
Saturday. — London Free Press.

J. H. Hughes returned from his Co's
mill last Thursday and reports their mil-
ling operations in good shape. They
opened up in full blast last Tuesday and
they expect to cut and plane and ship 30,
000 ft. per day. They built a big large
this spring capable of carrying 20,000 ft.
of lumber and with a tug and barge char-
tered for the season will ship their whole
cut over the lake this fall. As we go to
press they report having 30,000 ft. on the
C.P.R. tract. We bespeak a big trade
for this summer owing to the fact their
stock is all white pine and taken from a
new limit. They have introduced a new
planer into their mill which tells by its
work is one of the best in Canada. Their
siding and flooring is as smooth as a piece
of moulding. With their new band saw
put in this season they will cut even
stock than ever. They still have at their
mill over half a million of dry stock car-
ried over from last year. The Chatter
Elevator people are well pleased with the
stock shipped them by this firm. — ad.

Mr. P. D. Barrager, of Victoria avenue,
has one of the most fruitful gardens in
town.

Mr. John Gilbert, late of Belleville,
Ont., is opening out a full line of grocer-
ies and fruits of all kinds in the new
store between 6th and 7th streets, just
east of Wilson's hardware.

Mr. E. W. Montgomery, B.A., M. D.,
physician and surgeon, may be consulted
at the Metropolitan until such time as an
office can be secured. Mr. Montgomery
comes well recommended, probably the
best of which is that at his last examina-
tion he passed highest in all his studies.
This gentleman also served a year in the
general hospital in Winnipeg. We wel-
come him in our midst, and wish him
every prosperity. — Melita Enterprise.

Miss M. Rutherford, daughter of Mr.
and Mrs. Thos. Rutherford of this city,
returned home yesterday from the east.
Miss Rutherford has finished her course
at Alma College, St. Thomas, graduating
in arts last June with high honors. She
is accompanied by Miss L. McKenzie, of
Brandon, who has completed a successful
year's study at Alma in the subjects of
vocal and instrumental music and litera-
ture. The latter will be the guest of
Miss Rutherford during a brief visit in
the city. — Winnipeg Free Press.
